

KAS BANK MiFID Remuneration Agreements

Remuneration agreements

We inform you that, although it is our policy not to engage in specific remuneration agreements in respect to non-listed funds, incidentally these funds offer distribution rebates to KAS BANK. MiFID regulation requires that remunerations of this kind between various parties involved in the provision of investment services are made transparent beforehand. As per your request we can provide you with further details about these possible remunerations. In this case please contact your account manager.
